

HIGH TEMPERATURE SPINNERET

FOR MELT DIRECT WRITING OF ELECTROSPINNING

Part No.: TLHS-150

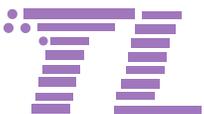

Temperature $\leq 150^{\circ}\text{C}$

Syringe: 5ml

High voltage: $\leq 25\text{KV}$

- Including Pressure regulating valve.
- Pump is not included due to transportation regulation
- This high temperature spinneret can be used for melting polymer or heating solution or gel.

TONG LI TECH manufactures a large selection of Electrospinning machine that includes lab setups, pilot production equipment, and mass-production machines for both polymer solutions and melts. This spinneret can be used for all TONG LI electrospinning machines except for TL-01.
